GRADE LEVELS REPRESENTED

When completing the survey, respondents were asked to select the stakeholder group(s) they represent as well as their grade level(s) of interest/involvement. In this overview, responses are counted once for each stakeholder group and/or grade level selected.

STAKEHOLDER DEMOGRAPHICS

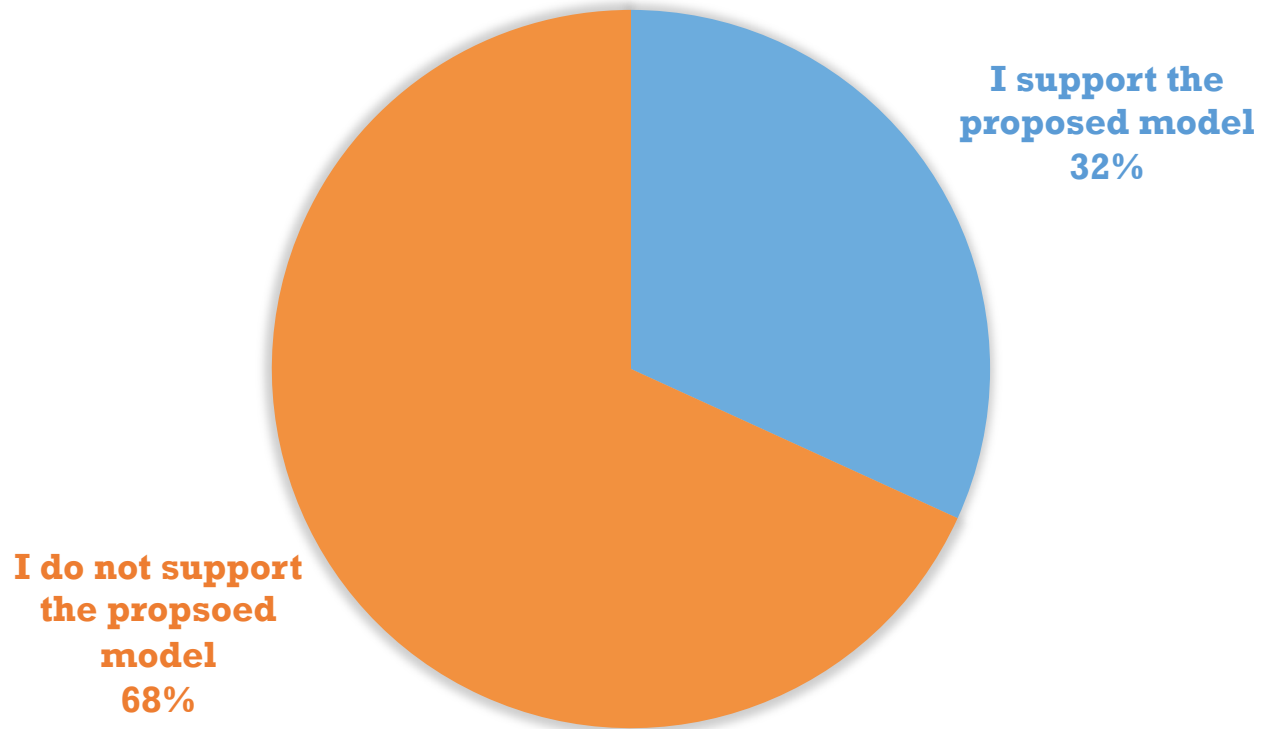

Communities Represented*

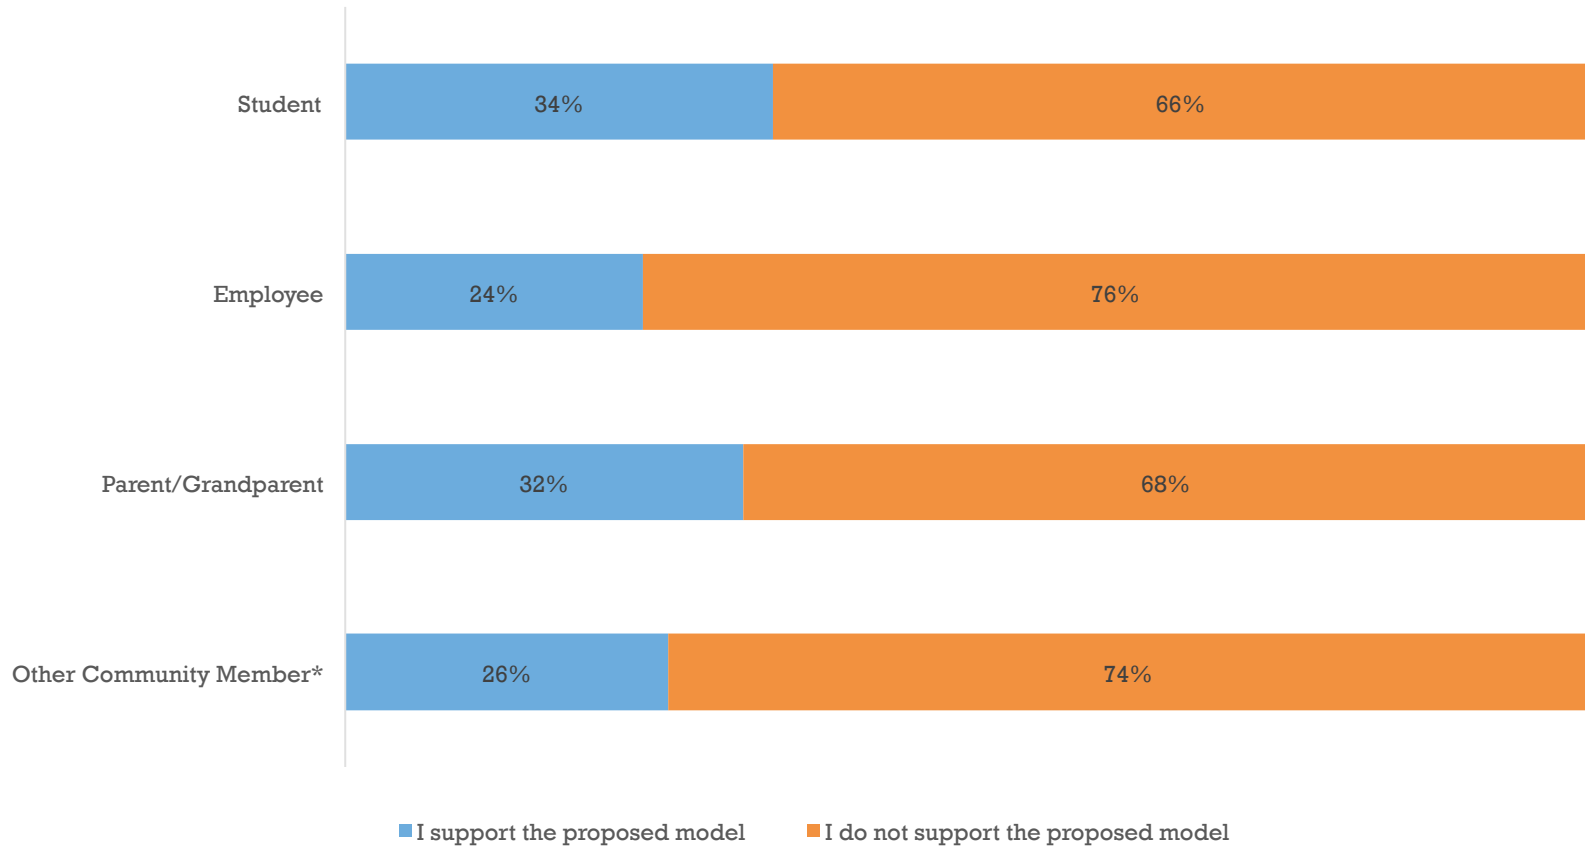

*Respondents were asked to select the census-designated area in which they live.

OVERALL RESPONSE

Total Responses: 14,544

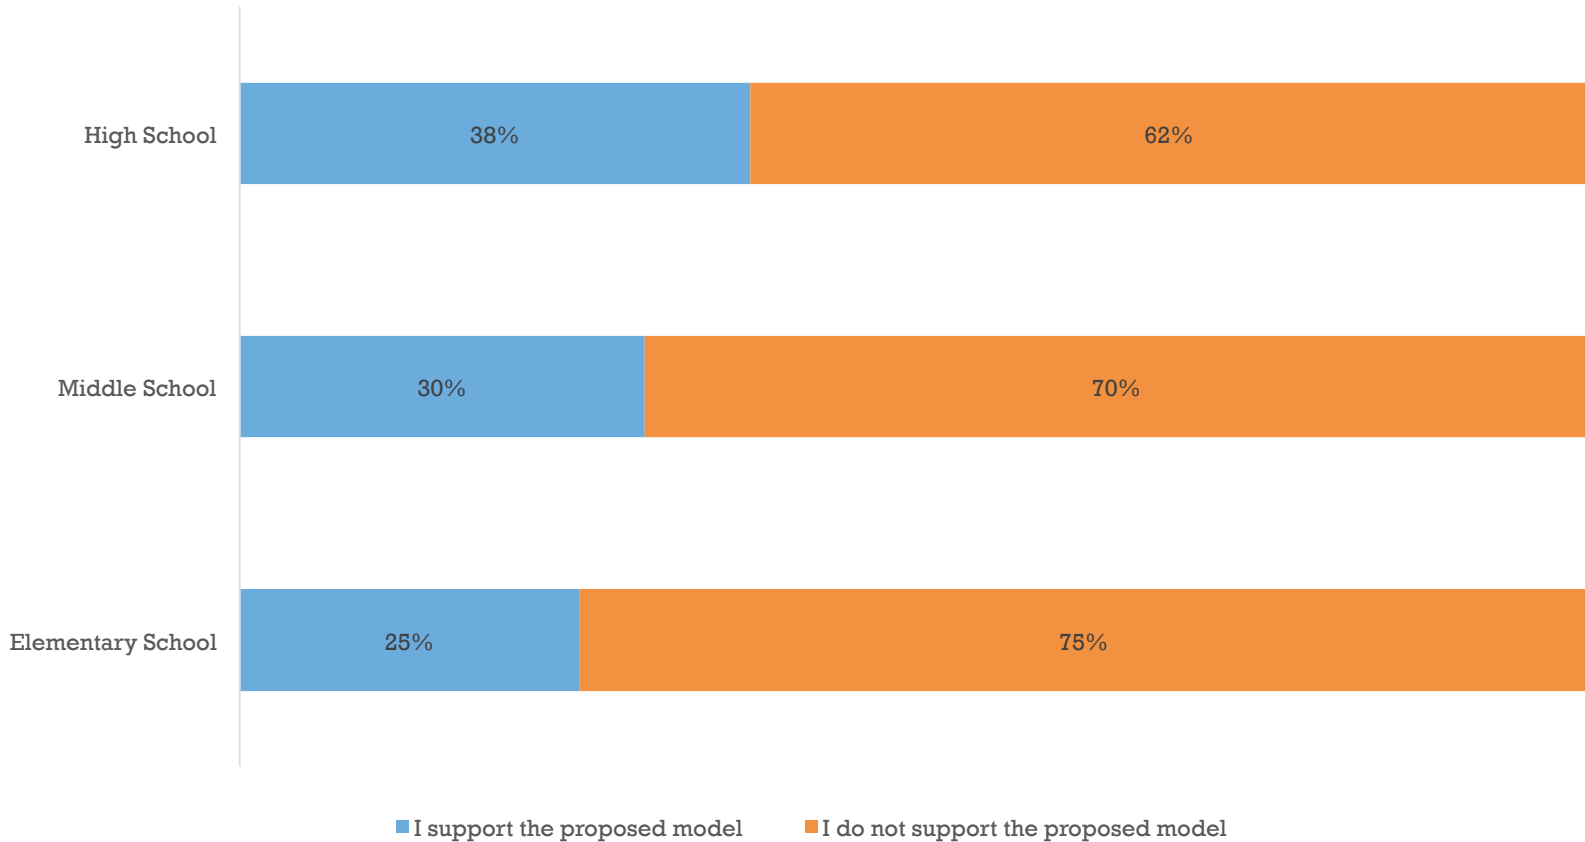

OVERALL RESPONSE BY STAKEHOLDER

***Other Community Member** includes After-school Activities/Athletics Provider, Child Care Provider, Anne Arundel County Resident without Children in AACPS, and "Other." See slide 9 for detailed response by each of these community stakeholder groups.*

OVERALL RESPONSE BY GRADE LEVEL

REASONS BEHIND RESPONSE

When completing the survey, each respondent was asked to indicate the reason(s) for why they did or did not support the proposed model for change in school start and dismissal times in 2017-2018.

I support the proposed model

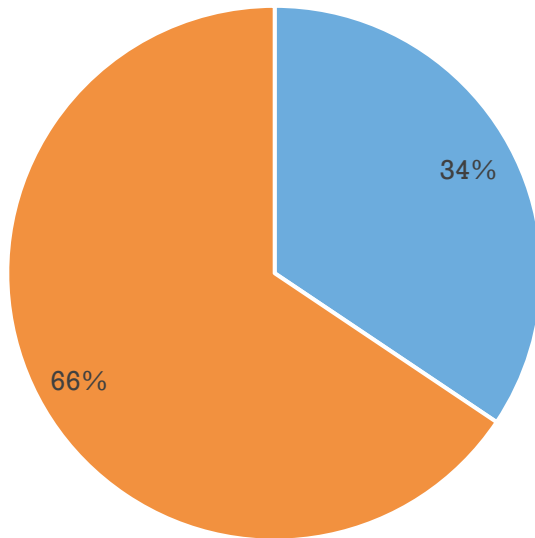

Reason	% of Responses
Improved student mental health	20%
Improved student physical health	17%
Increased student academic achievement	17%
Increased student safety (traveling in daylight to school)	15%
Improved student school attendance	12%
Decreased traffic accidents involving teen drivers	9%
Decreased middle school unsupervised time after school	7%
Decreased need for morning child care	4%

I do not support the proposed model

Reason	% of Responses
Current school start & dismissal times are fine for my family/stakeholder group	19%
Increased after-school activity/athletic challenges	15%
Decreased family time in the evenings	15%
Increased need for before/after school child care—limited availability	12%
Increased need for before/after school child care—increased cost	11%
Decreased student safety (traveling in darkness to or from school)	10%
Increased student employment challenges	9%
Increased transportation concerns/challenges for Special Centers & Magnet Programs	8%

STUDENT RESPONSE

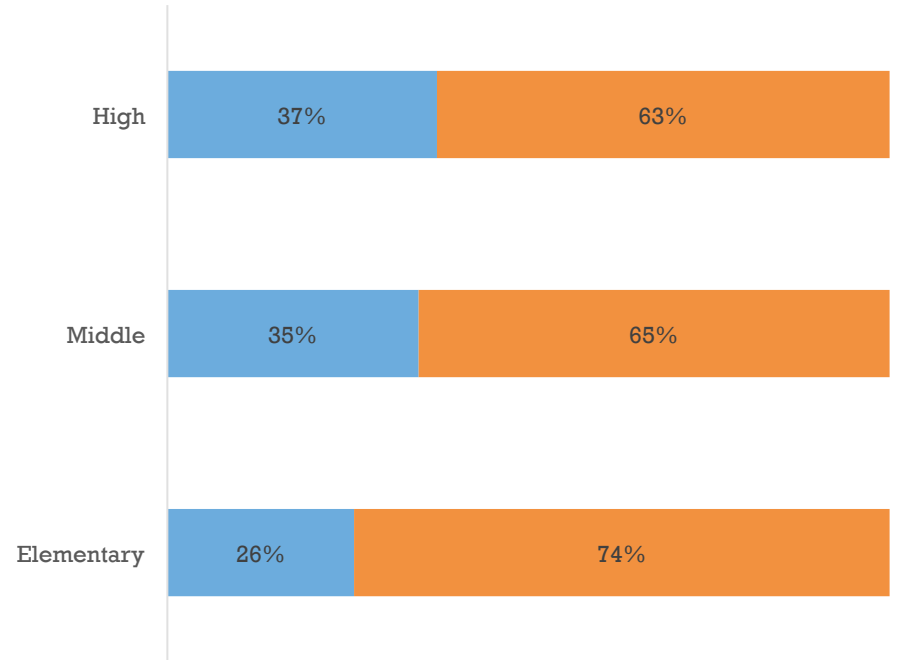

Student Overall Response

- I support the proposed model
- I do not support the proposed model

Total Students: 2,209

Student Response by Grade Level

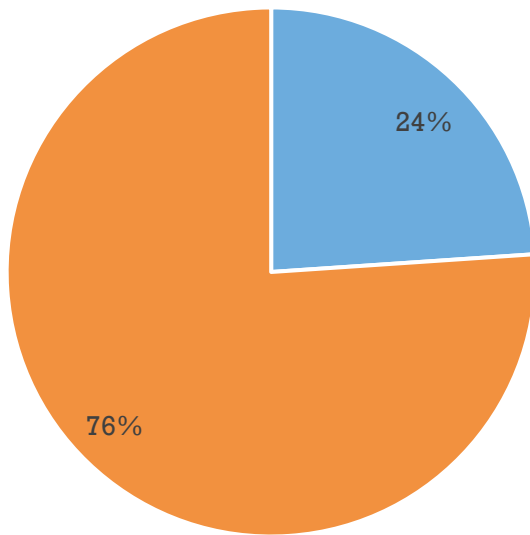

- I support the proposed model
- I do not support the proposed model

High School: 1,666
Middle School: 783
Elementary School: 719

Respondents were able to select more than one grade level.

EMPLOYEE RESPONSE

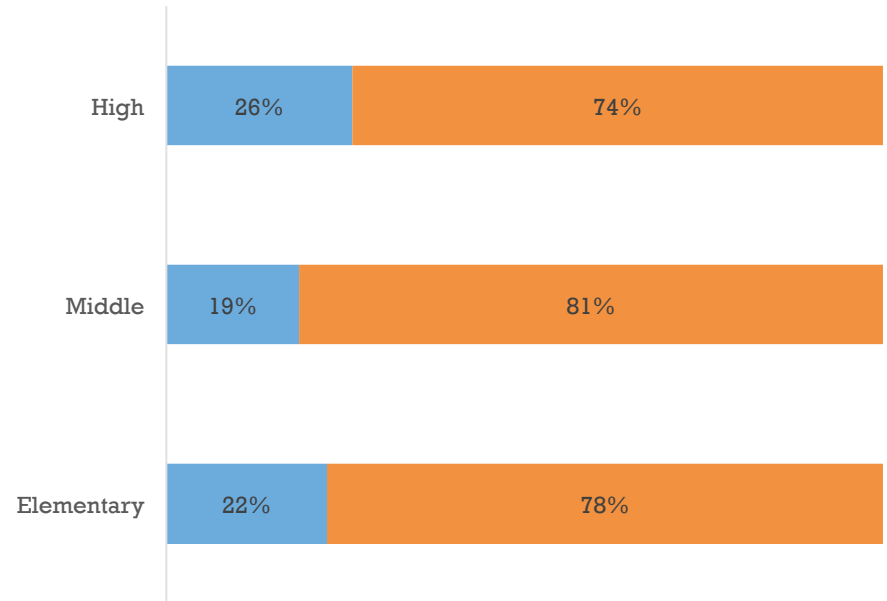

Overall Employee Response

- I support the proposed model
- I do not support the proposed model

Total Employees: 3,314

Employee Response by Grade Level

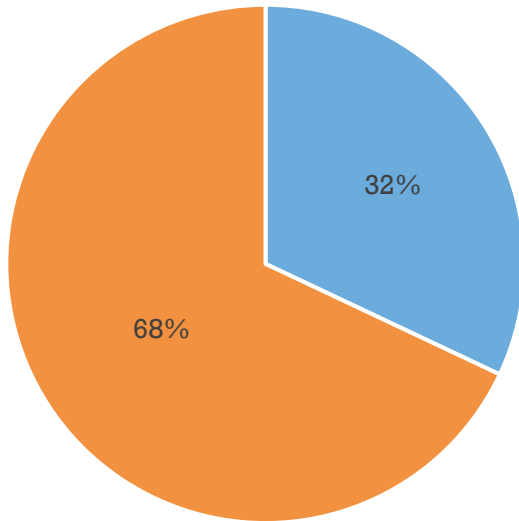

- I support the proposed model
- I do not support the proposed model

High School: 1,680
Middle School: 1,455
Elementary School: 2,054

Respondents were able to select more than one grade level.

PARENT/GRANDPARENT RESPONSE

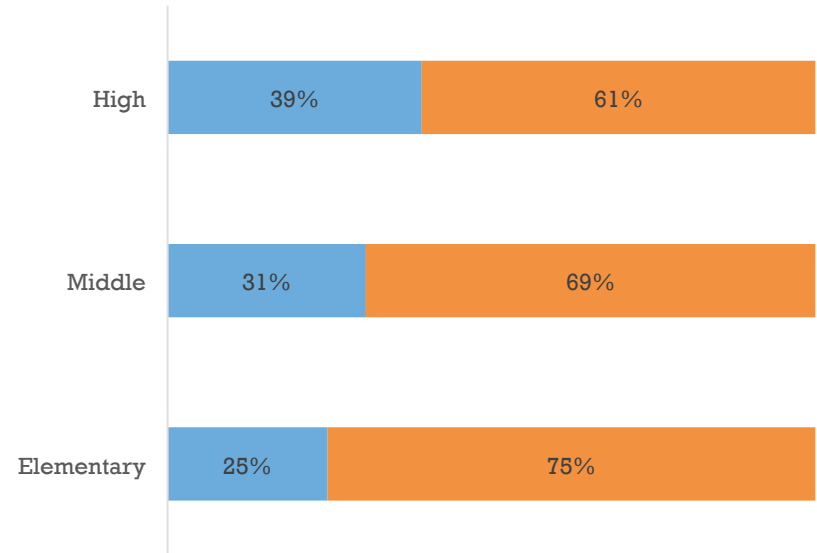

Overall Parent/Grandparent Response

- I support the proposed model
- I do not support the proposed model

Total Parents/Grandparents: 10,857

Parent/Grandparent Response by Grade Level

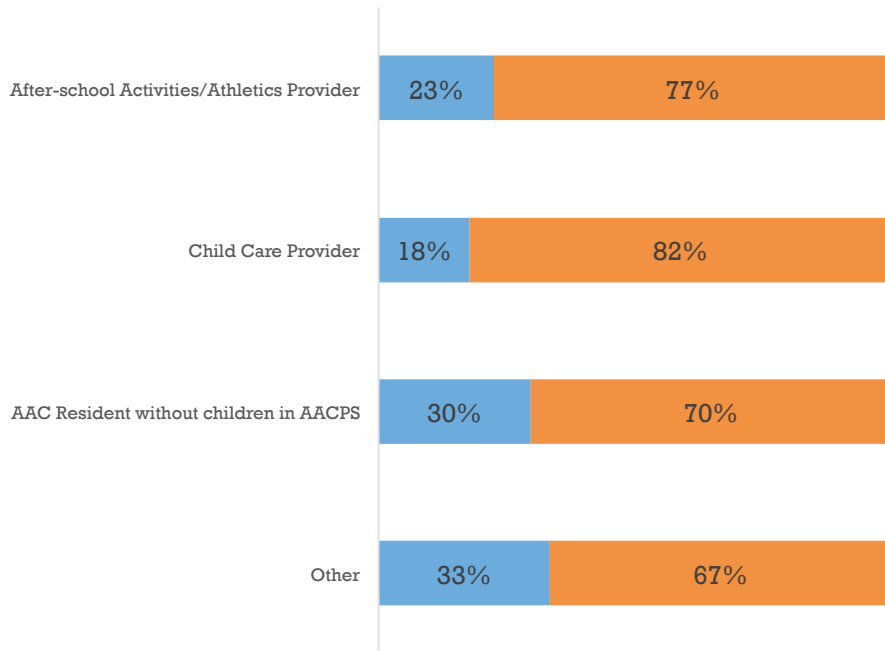

- I support the proposed model
- I do not support the proposed model

High School: 6,031
Middle School: 5,522
Elementary School: 7,038

Respondents were able to select more than one grade level.

COMMUNITY MEMBER RESPONSE

Overall Community Member Response

■ I support the proposed model ■ I do not support the proposed model

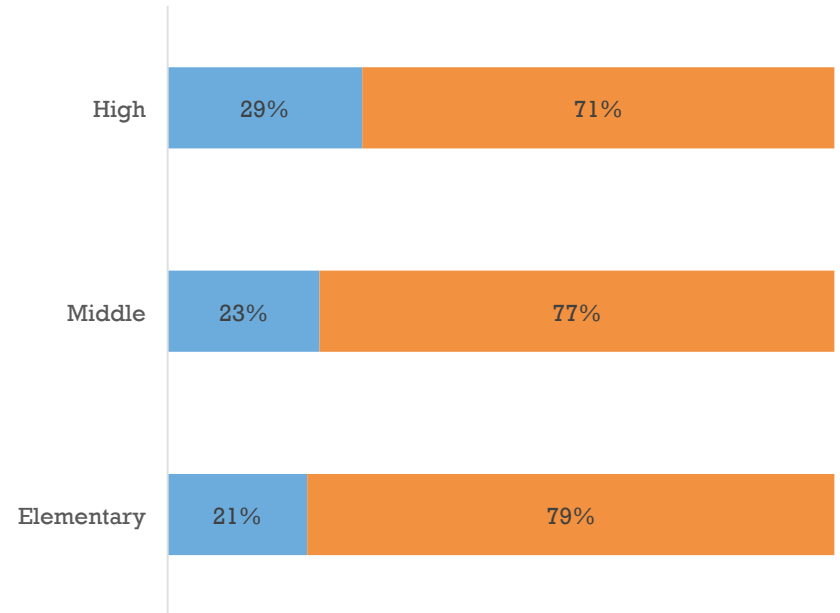

After-school Activities/Athletics Providers: 558

Child Care Providers: 309

AAC Residents without children in AACPS: 630

Other: 278

Community Member Response by Grade Level

■ I support the proposed model

■ I do not support the proposed model

High School: 1,105

Middle School: 943

Elementary School: 1,249

Respondents were able to select more than one grade level.
